

Community Education Acrylic Painting Classes

Acrylic painting classes are the ideal art class for those who want to relax, let go, and feel inspired while embarking on a journey of self-expression through painting. While painting on canvas, you will explore and experiment with your personal artistic style while you have fun in our nurturing, encouraging art classes

Bring out the paintbrushes and find your inner artist. This is for beginners and experts alike. You move at your own pace and pick your own subject. At the end of the 6 week session you will have a painting that is truly one of a kind —and to think you have been missing out all of these years!
