WHAT IS MCSD@HOME?

MCSD@Home is a program approved by the Kentucky Department of Education to implement Nontraditional School Days. Monroe County is one of 44 districts in the state that has been approved to participate in this program. MCSD@Home is a Nontraditional way to deliver instruction to students when we are unable to have a regular school day.

Why are we doing this?

MCSD@Home is to continue rigorous educational opportunities to all students even when it is not possible to have regular classes and to ensure that school is completed in May.

HOW DOES IT ALL WORK?

- MCSD@HOME Packets will be sent home in November. These packets will be kept at home in a secure location. The packets will give clear directions as to what the students are to do to meet the expectations for the class. Students will have a range of choices to meet expectations.
- Mrs. Thompson will send a ONE CALL announcing that we will not have school and that the day will be a MCSD@HOME Day. She will provide detailed information about expectations and directions.
- Activities will include traditional paperwork, project based, and electronic activities as options for the assignments.
- Teachers will be available during that day from 8:00-11:00 and 12:00-3:00 to provide instruction as needed by contacting them via email or by calling the school and/or board of education. These numbers are listed below. The Principal will take your name and number and send a message to the teacher to call you as soon as they can.
- If needed, students may have up to five extra days to complete the assignments if they encounter difficulties. The work will be turned in to the teacher.

Other Details:

We will use a MCSD@HOME day for the first TEN days we are unable to have a regularly scheduled school day. This will most commonly be used for SNOW DAYS but may also be used for other reason for the cancelation of a school day.

Students will be given credit for attendance on a MCSD@HOME Day if they complete the assignments provided by their teachers.
